

PREMIUM

SNOOK

SNOOK is a versatile, premium charging panel available in four sizes. It is always equipped with 60W USB-C/A charging and wireless charging. The added value of SNOOK lies in its retractable cables, which provide convenient signal connection or, in the CHARGER variant, direct power supply from the panel with cables connected from the bottom, combined with wireless charging and, optionally, an outlet. SNOOK is welcomed in demanding interiors due to its minimalist design, emphasis on intricately milled parts, and the matte surface of FENIX NTM.

Metal body with FENIX NTM and durable painting

Integrated wireless Qi charging

USB-A QC & USB-C 60W PD included

Highly compact and aesthetic

Integrated retractable cables

Supports wide range of socket standards

FRENCH type E SCHUKO type F UNI VERSAL ITALY type L DENMARK type K SWISS type J GB type G US type B

SNOOK XS

SPOOK XS is a suitable option if an outlet is not needed.

Dimensions(mm)	Weight (g)	Product package(mm / kg)
124,5 × 73 × 80,5	720	220 × 200 × 100 / 1
Number of socket	USB-C/A 60W charging	Power cable
0	YES	2.9m, ending with a plug 25cm WIELAND or WINSTA mini
Wireless charging	Slots for cables	CUT OUT (mm)
YES	-	120 × 68

SNOOK S

SPOOK S with all available charging options.

Dimensions(mm)	Weight (g)	Product package(mm / kg)
176 × 73 × 80,5	860	220 × 200 × 100 / 1,2
Number of socket	USB-C/A 60W charging	Power cable
1	YES	2.9m, ending with a plug 25cm WIELAND or WINSTA mini
Wireless charging	Slots for cables	CUT OUT (mm)
YES	-	171 × 68

SNOOK M

SNOOK M always comes with USB-C/A charging and wireless charging, either purely with outlets or in combination with PASS-THRU positions for cables.

Dimensions(mm)	Weight (g)	Product package(mm / kg)
227,5 × 73 × 80,5	1020	360 × 200 × 100 / 1,4
Number of socket	USB-C/A 60W charging	Power cable
0, 2	YES	2.9m, ending with a plug 25cm WIELAND or WINSTA mini
Wireless charging	Slots for cables	CUT OUT (mm)
YES	0, 2, 4 (only using extra insert - paid option)	222,5 × 68

SNOOK L

SNOOK L includes USB-C/A and wireless charging, an outlet, and PASS-THRU positions for cables. As an M variant, it can have USB-C/A charging ports on both the top and bottom.

Dimensions(mm)	Weight (g)	Product package(mm / kg)
292 × 74 × 62	1200	360 × 200 × 100 / 1,7
Number of socket	USB-C/A 60W charging	Power cable
1	YES	2.9m, ending with a plug 25cm WIELAND or WINSTA mini
Wireless charging	Slots for cables	CUT OUT (mm)
YES	0, 2, 4 (only using extra insert - paid option)	287 × 68

COLOURS

SPOOK is always offered as a fully lacquered panel with embedded FENIX NTM. We typically provide two mono color options and six combined designs.

BIANCO KOS

white FENIX NTM and painted frame paired to Bianco Kos colour

SILVER & BIANCO KOS

silver painted frame and white insert FENIX NTM

SILVER & GRIGIO EFESO

silver painted frame and grey insert FENIX NTM

SILVER & NERO INGO

SNOOK CHARGER: INTEGRATED CHARGING IN THE CABLES

SNOOK CHARGER, in both M and L variants, offers USB-C/A charging ports at the bottom for direct connection of USB-C and Lightning/USB-A cables.

COMPLETE CHARGING AND POWERING FROM ONE PLACE

Two charging cables directly powered from the panel. USB-C 60W for a laptop and Lightning for a phone or headphones. In addition, wireless charging is available, and in the L variant, there is also a power outlet. This variant is typically configured with a USB-C cable and a Lightning/USB-A cable as standard.

For the charger variant, it is possible to choose different combinations of cables and utilize the charging ports, for example, to power a fixed device on the desk using SNOOK INSERT with pass-through cables.

SNOOK INSERT WITH CABLES

The cable insert is available as an additional option, featuring a dual-cable position with two pass-through cables (on the sides).

SNOOK INSERT, 2x PASS-THRU (cable slot), 2x GROMMET

WHITE	white	SNINS-W
SILVER	silver	SNINS-S
BLACK	black	SNINS-B
TAUPE	bronze	SNINS-T

CABLE PULL-OUT OPTIONS IN THE PANEL

SNOOK offers high variability for retractable cables with either a PASS-THRU pocket or a PULL-OUT system with a pulley. This applies to both supplied cables and user-provided cables.

CABLE INSERT AND UNDER TABLE HOLDER

The cable PASS-THRU allows for easy and gentle cable threading through the panel, whether it's passive cables threaded through the panel or user-retractable cables.

The cable insert is easily inserted and secured with a single screw from the bottom after putting the cable through the panel.

Cable holder under the desk for cable length set up

EXTENDED OPTIONS FOR CABLE POSITIONS

INDIVIDUAL CABLE

The cable recommended by us in the given standard.

PASS-THRU BAG

Textile soft custom-made 33 cm bag in black with a metal holder linked to the panel's cable holder. It is provided as an accessory item.

PULL-OUT WITH PULLEY

Textile soft-sewn 65 cm bag (available in black or grey) with a metal holder connected to the panel's cable holder and a versatile pulley suitable for various types of cables.

PULL-OUT WITH PULLEY AND CABLE

PULL-OUT with a cable of your choice (options listed below).

INDIVIDUAL CABLES FOR PASS-THRU INTEGRATION IN THE PANEL

Cable installation is possible before or after installing the panel into the table. The cable can be secured to the panel using a cable holder, adjusted to the desired length.

INSTALLATION INSTRUCTION

SNOOK is installed into a cut or milled opening in the tabletop.

To install the SNOOK panel, you will need a jigsaw and a hole saw with a diameter of 68mm. Of course, CNC milling can also be used. Here are the installation steps:

- 1 | Mark the two end holes and drill them using the hole saw.
- 2 | Cut the bridge between the holes using a jigsaw.
- 3 | Fit the panel into the opening, place the mounting frame from underneath, and tighten the screws according to the strength of the tabletop.
- 4 | Connect the panel to the electrical outlet and AV connection (if provided).

PRODUCT PACKAGE

Panel SNOOK with power cable, mounting frame, mounting screws

THICKNESS OF THE DESK

10 - 40 mm (possibility up to 60 mm with custom screws, not part of a standard package)

SAFETY & RECYCLATION

PANCONNECT declares that panel SNOOK complies with Low voltage directive 2014/35/EU and EMC directive 2014/30/EU. Testing has been made according to EN 50491-5-1:2010 and EN 50491-5-2:2010 standards.

All products from PANCONNECT are intended for upgrade or recycling in accordance with the company's policy. Before the disposal of this panel comes up, please verify if this product can or cannot be upgraded or overhauled. If it's not possible, kindly arrange the disposal in accordance with valid EU directives.

This product belongs to WASTE ELECTRICAL AND ELECTRONIC EQUIPMENT (WEEE) category so the disposal is possible only in accordance with this WEEE Directive 2012/19/EU. It cannot be part of the municipal waste. For more information please check www.asekol.cz | info@asekol.cz
