

CORD offers a smart solution for places where cables are needed but sockets are not. This panel replaces cable grommet and brings effective cable management to the meeting rooms, huddle rooms and workplaces. Installation is easy and quick, it fits to 100 mm holes.

CORD is produced in two variants - CORD STANDARD and CORD POWER. CORD POWER contains active USB charging (USB-A and 60 W USB-C) and two pull - out cables. CORD STANDARD is ready for placing up to 4 cables. PULL-OUT sys-

tem is a preferred option for cable manipulation that works on principle of gravity weighted cables in a textile bag and it allows the cable to be pulled up to 96 cm (the total length of the cable is 200 cm).
